

About this Book

This book was created by Sean (Menlo School '23) and Sophia (Stanford '23) Nesamoney in collaboration with the Adarsh M.S. Mahulia School in Jharkhand, India. The professions that we used in this book were chosen by students of this school, specifically from the AIF (American India Foundation) LRC (Learning Resource Center). The photos below are of the students' work to generate a list of professions from A-Z.
